OBJECTIVE

Software Engineer with 1+ year of experience in full-stack development, having worked in both fast-paced startup and large corporate environments. Seeking to specialize in software development, with a strong focus on user-centered design and delivering solutions that meet business requirements. Passionate about enhancing user experiences and continuously learning new technologies.

EDUCATION

Master of Computer Application, Madras Christian College — 2019 - 2022
Bachelor of Science(Mathematics), Patrician College — 2016 - 2019

SKILLS

Languages	Core Java, JavaScript
Front-End Technologies	HTML5, CSS
Development Stack	MERN - MongoDB, ExpressJS, NodeJS, ReactJS
Database	SQL

EXPERIENCE

Associate Software Engineer — April 2024 - Present
Accenture — *Chennai*

- Currently working on a UI project using Angular and TypeScript, implementing front-end technologies to design screens based on Figma layouts. Building user interfaces and integrating them with business logic. Additionally, I possess knowledge in using AG Grid for creating dynamic, data-driven grids and tables to enhance the user experience.
- Utilizing a Master Library to build reusable, modular components in order to maintain consistency and reduce code duplication across the project. Working with HTML5, and adhering to the BEM methodology for SCSS styling.
- Leveraging Azure DevOps for version control and collaborative code sharing.

Software Engineer — Nov 2022 - April 2023
Lumera Software Solution — *Chennai*

- Developed RESTful APIs using Ruby on Rails for backend services.
- Collaborated and managed tasks using tools like JIRA, GitHub, and Slack

PROJECTS

React Portfolio App Developed a single-page portfolio application showcasing my own portfolio using ReactJS and Tailwind CSS to enhance my skills. Focused on creating a responsive design for seamless user experience across devices. (Github)

EXTRA-CURRICULAR ACTIVITIES

- Actively learning AWS Fundamentals to gain in-depth knowledge of cloud technologies and AWS services.
- Passionate about tutoring students, sharing knowledge, and helping others to learn.
